Dianne is back creating dreams after hip pain

Dianne, who has dedicated her professional life to ensuring brides feel at their most beautiful on their big day, is back conducting ceremonies after she could not get her operation approved by the NHS.

“I was rejected for hip surgery because of my weight, even though I weighed the same as when I had my left hip and my right knee replaced.

I first went there as an NHS patient because of the short waiting list and I would recommend that anyone who needs treatment should look at the centre.”

Dianne Fox, Doncaster

Back to the golf course, thanks to self pay surgery

For almost 18 months, Peter had been suffering from pain caused by a hernia. His GP's request for NHS funding was rejected twice and it seemed as if he would face a future with limited activities and increasing pain.

“My wife had knee surgery as an NHS patient at Care UK and we had been delighted with it. When we found out the centre was offering self pay surgery it was the natural choice.

The consultant was excellent. I am looking forward to joining my friends back on the golf course and would recommend the centre to anyone!”

Peter Brewin, Weston-Super-Mare

Frequently asked questions

1. I've already been consulted on the NHS, but have been told I have to wait for treatment – can I still pay for myself?

We know that being treated sooner can have a huge impact on your quality of life, so if you would like to explore the option of paying for yourself please speak to our Private Patient Advisors on [0330 058 1778](tel:03300581778) or selfpay@careuk.com. Changing your path from the NHS to self pay is simple, and you may even see the same consultant, as all of our doctors also treat NHS patients.

2. How and when do I pay?

You can pay by debit card, credit card, cheque, or bank transfer (BACS). Payment is required before your surgery date. Alternatively, you can pay monthly via a credit agreement with our finance partner, Chrysalis Medical Finance. Find out more about our finance options at careukselfpay.co.uk/peninsula.

3. Do I need a GP referral?

Yes, you need to ask your GP for an 'open referral'. We can also accept open referrals from other healthcare professionals, such as physiotherapists, optometrists or dentists. Please contact our Private Patient Advisors on [0330 058 1778](tel:03300581778) for more information.

4. How quickly can I be treated?

We pride ourselves on our short waiting times, so your access to treatment could be significantly quicker with us. Please contact our Private Patient Advisors on [0330 058 1778](tel:03300581778) or selfpay@careuk.com for further information on access times.

5. Can I choose my consultant?

In order to keep our waiting times low and provide the best possible service to all of our patients, we do not give you the option to choose your consultant.

6. What if I have a problem after my surgery?

You may have a check-up appointment and/or physiotherapy depending on the type of surgery you've had. We'll make sure that you're looked after for as long as you need our care.

7. Can I still have my surgery at Peninsula Treatment Centre if I have a health condition?

Depending on what your health condition is, we can provide selected treatments as long as your condition is well managed and stable upon admission to the hospital. This includes angina, asthma, atrial fibrillation, diabetes, high blood pressure, Parkinson's disease and mild dementia. For our full referral criteria please visit: peninsulatreatmentcentre.nhs.uk/criteria

Preparing for surgery and after-care

Your care is our number one priority.

With our consultant-delivered service, we do our best to ensure that the doctors you meet at your outpatient appointment will also carry out your surgery and your follow-up appointments.

Getting prepared for surgery

One of the benefits of being treated at our hospital is our 'one-stop-service' for your outpatient appointment. We aim to complete any pre-treatment tests then and there, to save you making multiple trips, and our anaesthetists and physiotherapists will do their best to assess you at the same time.

Your outpatient appointment is also an opportunity for you to meet the consultant who will perform your treatment. Feel free to ask any questions you wish – you may even want to write these down ahead of your appointment. They will explain any special preparations you may need to make before your treatment.

On the day of your treatment, wear something light and comfortable, so you're as relaxed as possible.

If you'll be staying with us, you may want to bring personal toiletries, nightclothes, comfortable footwear, something to read, and any medication you routinely take.

After-care following your surgery

When you leave the centre after you have had your treatment, you'll be given full details of your follow up care. We will inform your GP that you've been discharged from the treatment centre and we will telephone you – usually a couple of days after your treatment – to check that you are recovering well.

It's crucial to rest and take care of yourself after your treatment.
